

Welcome to our Website

The Neurology, Headache and Pain Control Center, P.A. is a multidisciplinary assessment and treatment facility offering comprehensive services for the evaluation of neurological disease, acute and chronic pain, as well as a rehabilitation program.

In order to insure you the highest quality treatment as our patient, we offer extended in depth history and physical examinations in conjunction with in-house diagnostic tests and procedures. At the Neurology, Headache and Pain Control Center, P.A. we assess psychological factors.

The Mission of The Neurology, Headache and Pain Control Center is to treat neurological disorders, headaches, low back pain, neck pain, cancer pain, neuropathic pain, diabetic pain, post traumatic pain, and post surgical pain.

What can you expect from us?

- Respectful and courteous care from each employee in our clinic.
- Discussion of our evaluation process and findings, and with your input, development of a treatment plan specific to your needs.
- Confidentiality of your medical records; you must authorize us to release information to anyone other than your referring physician and insurance company.
- Physical Therapy treatment appropriate for your complaint and to meet your goals.
- Availability of our Billing Department to answer any questions you may have.
